HAIR REMOVERS

Physicians Say: "Don't Use Poisonous Depilatories."

Physicians Say: "Don't Use Poisonous Depilatories."

The extravagant ciaims recently made by unscrupulous manufacturers of hair removers in sensational advertisements unquestionably justify physicians in cautioning the public against the use of this class of depilatories. How many people have been enticed into using these dangerous preparations with consequent injury to themselves cannot be estimated bit only guessed at.

The preparations above referred to are invariably in the form of creamy pastes, which are to be spread upon the skin to remain until they dry. These contain suiphide of barium, an insoluble chemical, which cannot be dissolved, therefore cango: be absorbed by the skin. The very fact that you are told to leave these pasty compounds on the skin until they dry and cake and then lift off with a kulfe is proof positive that they are not absorbed. If they are, why do they still remain on the skin? The most they can possibly do is to remove the surface hair, which in consequence will reappear stronger and thicker after each removal.

There is only one logical and scientific way to remove hair, and that is by means of a liquid containing soluble ingredients which can be absorbed by the skin. De Miracle, known all the world over as the only real superfutious hair remover. Is just such a preparation. It is easily and midely absorbed and after you know the surface last. Miracle, known all the world over as the only real superfluous hair remover. Is just such a preparation. It is easily and quickly absorbed, and after you have used it you will note there is nothing left on the skin. It leaves the skin free from irritation, and what is more to the point, it is absolutely non-poisonous, therefore, it will not produce eczema or blood poisoning. Remember, no matter what claims are made to the contrary, no poisonous, pasty compound or other worthless concection can reach the hair root, and we can prove it.

ware of the take free advertisers and Beware of the fake free advertisers and others. Don't be deceived by them. Better take a doctor's advice. De Miracie Is sold by Druchl & Franken. We will send you a 52-page booklet containing full information concerning this remarkable treatment, as well as testimonials of prominent physicians, surgeons, dernatologists, medical fournals and the principal ningszines. You should rend this booklet before you try anything. Write to the De Miracle Chemical Company, Dept. 145, 1905. Park ave. New York, simply saying you want this booklet, and it will be mailed, sealed, at once. Here's the Girl Who Said "Yes" When Teddy, Jr., Popped the Question
